### ONION POWDER for Butchers & Food Processors

Our high-quality **ONION POWDER** is a versatile, time-saving ingredient used widely across the meat and food processing industries. Ideal for butchers, commercial kitchens, and food manufacturers, this finely ground seasoning delivers consistent onion flavour without the prep, mess or perishability of fresh onions.

Onion powder is derived from dehydrated ground onion, and it is a popular flavour agent. It brings a flavour of onions without having to dice a whole lot of onions - so helps save time, while maintaining consistency. Onion powder is approx. 10 times stronger in flavour compared to fresh onions.
