What is American Burger Seasoning?

American Burger Seasoning is a ready-to-use mix of classic spices, herbs, and flavour enhancers designed to give burgers that distinctive **smoky, savoury, and slightly sweet American-style taste**. With hints of paprika, onion, garlic, and black pepper, this blend creates a rich and juicy burger that's bursting with flavour.

How Butchers Use It

Product Description

Simply mix the seasoning with minced beef or your preferred burger meat blend. The typical ratio is around **4% seasoning to meat** (e.g., 40g seasoning per 1kg of meat), but this can be adjusted to suit taste preferences. Ideal for use with burger presses or by hand, it ensures uniform seasoning and excellent binding for a firm, well-shaped patty.

Why Your Customers Will Love It

- **Classic American taste** with a balanced profile of spice, savoury depth, and subtle sweetness.
- Enhances the natural flavour of meat without overpowering it.
- Works well with beef, pork, or even plant-based alternatives.
- Great for barbecues, grill nights, and premium butcher counter offerings.

Ideal for Butchers and Meat Processors

This seasoning is a staple for **butcher shops, meat counters, farm shops, and food processors** looking to create standout burgers that customers will come back for. Whether for fresh burger sales or pre-packed BBQ selections, it delivers quality and flavour every time.
