Product Title

STEAK PIE SEASONING AND GRAVY THICKENER 10KG

Product Code

SE40030F

Our best selling, award winning Steak Pie Seasoning and Gravy Thickener , which is ideal for a steak and kidney pie or added to meat as a gravy.

Usage rate for this product is 5% in a pie and 10% in a gravy.

Supplied in a 10Kg sack. The 10kg pack is a value-for-money bulk buy, resulting in an excellent cost saving for high-usage butchers.

Our hidden gem - Scobie & Junor steak pie seasoning and gravy thickener...

The 2017-2018 title for best butchers` steak pie in Scotland goes to butcher John Anderson in Leith, Edinburgh:

"We were amazed to win, we haven't done anything different , been using the same recipe , always use Scobie steak pie and and gravy mix and the same cooking method . It is the first time we have entered any competition." James Anderson Butchers of Leith, Edinburgh

This product is freeze/thaw stable. Please see the recipe above for further cooking instructions.

Product Description

Have you tried using Bouillon Mix with your gravy when making pies?

Many of our butcher customers who make pies boil their diced beef for their pies in bouillon stock in order to boost the flavour. Then they will use that same bouillon stock to make their gravy, rather than plain water - again boosting the flavour to make their pies even tastier.

How to Make the Perfect Gravy for Your Pies?

Whether you want a **thick, rich gravy that stays inside the pie** (like a classic **football pie**) or a **looser, flowing gravy** that runs onto the plate when cut, the secret is in the consistency and

thickening method. Here's how to achieve both styles:

Football Pie Gravy - No Leaks, No Mess

For pies meant to be eaten **on the go**, like at a football match, the gravy needs to be **thick and gel-like** to prevent leaks when bitten into. If this is the type of pie you want, then use less water with the gravy mix. Or use the same amount of water but gently simmer it for longer to reduce down to a thicker gravy, then cool before pouring into your pie filling.

Ensure your diced steak is fully cooked and cooled before mixing with the chilled gravy. This helps maintain food safety standards and consistent filling temperatures. Fill pie cases with cold steak and gravy mixture, then top and seal. For a cold fill, aim for a slightly thicker consistency, as the gravy will loosen a bit when heated during baking. Tip: The pie filling should be scoopable, not runny before baking.

Plate Pie Gravy - Rich and Runny

For pies meant to be **cut open on a plate**, you want a **silky, flowing gravy** that coats the filling and spills out beautifully. To achieve this use more water in your gravy mix or gently simmer it for a shorter period. The higher the % gravy mix compared to water that you have - the more intensive the flavour will be. Tip: This gravy should be pourable but still cling to the meat.

Usage Rate	5.00%
Best Before Dates	24 months from date of manufacture
Unit Size	10Kg PAIL
Intended Usage	Food Ingredient

Ingredient List/Composition
MODIFIED POTATO STARCH
SALT
RUSK (WHEATFLOUR (WHEAT FLOUR , CALCIUM CARBONATE, IRON, NIACIN, THIAMIN), SALT, RAISING AGENT E503)
POTATO STARCH
WHEAT FLOUR (WHEATFLOUR , CALCIUM CARBONATE, NIACIN, IRON, THIAMIN)
MALTODEXTRIN
COLOUR E150C
FLAVOUR ENHANCER E621
ONION POWDER
SPICE EXTRACT (Celery)

Declarable Ingredients for Counter Ticket/Labelling:

Contains COLOUR, Spice Extract

Allergy Advice: For allergens, see ingredients in **BOLD**.

Non Declarable Processing Aids/Additives From Carry Over

Processing Aid	PPM	Country of Origin
Thiamin	7	China
Calcium Carbonate E170	1,068	France
Ammonium Carbonate E503(ii)	trace (<1ppm)	Germany
Niacin	44	India
Citric Acid E330	13	UK
Monopropylene Glycol E1520	140	UK
Rapeseed Oil	2,500	UK
Silicon Dioxide E551	1,260	UK
Sodium Ferrocyanide E535	7	UK
Sulphur Dioxide E220	2	UK
Vegetable Oil	2,500	UK
Iron	452	USA

Chemical Specification (Typical Analysis):

Salt Level	20% - 27%
Preservative	None
Colour	To be equal in solution to the last accepted delivery

Typical Nutritional Values

	Per 100g of Seasoning	Per 100g of Finished Product
Energy	1,068 KJ 255 Kcal	53 KJ 13 Kcal

Nut Statement	To the best of our knowledge, all products produced by Scobie & Junor do not contain any nuts or nut derivatives. However, we cannot guarantee that they are nut free. For more information please see our Nut Policy.
Allergenic Ingredient Policy	Scobie & Junor (Estd. 1919) Ltd takes all reasonable precautions to ensure the quality of our seasonings, mixes and functional blends. All materials are purchased from approved suppliers against a detailed specification, which clearly indicates the presence or absence of various ingredients.
Sieving	All raw materials are sieved with appropriate screens for each particular raw material prior to the blending of the product.
Labelling	Product label will contain Product Code, Product Name, Best Before Date and Batch Number.
Storage/Transport	Cool dry ventilated conditions avoiding direct heat or sunlight. Stored off the floor and not in contact with walls or ceilings.
Health Hazard	This product is designed for human consumption and when used in accordance with our recommendations should be safe for that purpose. Avoid ingestion or inhalation of dust when handling.
Fire Hazard	This product may present a fire hazard or explosion hazard when dispersed in air. Fires are readily extinguished with water or foam.
Handling	Use in a well ventilated area.
Spillage/Disposal	Spillage: Remove powder to a disposal container, wash contaminated area with detergent and water. Disposal: In accordance with the control of pollution act 1974.
Emergency First Aid Procedures	Skin Exposure: Normal standard of hygiene and regular washing with water should prevent irritation. Eye Exposure: Wash with water until irritation ceases. Seek medical advice if above is not observed. Inhalation: Remove person to fresh air.
	IN ALL CASES IF ADVERSE EFFECTS PERSIST OBTAIN MEDICAL ADVICE
Legislation & Warranty Statement	The product will be produced in accordance with all current relevant EU Legislation. The information provided is given in good faith and is based upon the product data supplied by the raw material suppliers. All additives used in this product comply with the requirements of regulation (EU) No. 231/2012 laying down specifications for food additives.
Confidentiality	This specification and the information contained within it remains the property of Scobie & Junor (Estd. 1919) Ltd and must not be disclosed to any third party without the prior written consent of Scobie & Junor (Estd. 1919) Ltd.

Customer Approval of Specification	
Please sign and return this specification to technical@scobie-junor.co.uk to confirm formal acceptance of this specification. All specifications issued will be deemed to be accepted if no communication to the contrary is received after 10 working days.
