Product Title                    HAND PALLET WRAP BLUE 400MM W, 300M L, 17MU x 6  
Product Code                    PW67508

Pallet wrap (also known as stretch wrap and stretch film) is a strong plastic film that is easily stretched around items, especially items on a pallet. The elastic recovery of the wrap means that it keeps the items tightly bound, so that pallet items are stabilised and unit loads can be created. Our stretch wrap is easily applied either by hand or with our hand-held dispenser. The wrap adheres to itself once it is wrapped around the pallet, or around goods, and protects the goods against dust and weather. Stretch film retains its tension while in transit, so items will not slide around and get damaged. All rolls have a core diameter of 4cm and are fully compatible with our hand held stretch wrap dispensers. The cores themselves weigh 0.21-0.22 Kg. We currently offer a wide variety of different types of pallet wrap, which includes light to extra heavy duty stretch film rolls.

- 4cm core diameter
- 0.21-0.22kg roll weight
- Flush or extended cores available

Technical Data:						
Test Method	ASTM D 882		ASTM D 883		ASTM D 1709-09	
Thickness	Strength (N/mm <sup>2</sup> ) (Min.)		Elongation (%) (Min.)		Dart Drop (g)	
	MD	TD	MD	TD		
12	48	20	400	750	<50	
15	48	19	425	775	50	
17	50	20	450	800	50	
20	50	20	500	825	50-60	
23	50	20	525	825	60-80	
25	50	20	550	825	70-90	

## Technical Features:

- Tolerance of the film is +/- 3% for thickness , +/- 1mm for width and +/- 2% for length
- Product is PE film
- Suitable for contact with food
- Does not include forbidden materials set forth in ROHS directive
- Does not include heavy metals and the materials included in the REACH regulation
