**Product description Trolley with Wheels Black 1015 X 540 X 950MM**

Enhance your food service operation with a versatile, durable transport option, the KD Utility Cart. Ergonomic handles have permanently molded-in Camguard antimicrobial to inhibit the growth of mold, fungus and bacteria. Recommended for bussing and vending applications, the KD Cart holds a full size Camrack or two standard bus boxes on each shelf, up to 180 kg. Non-marking, quiet swivel casters reduce noise during transport, with secure marine rails and lightly textured polypropylene shelves keep contents in place. Optional shelf panels offer additional security, enclosing two or three sides to preference. This product ships “knocked down” to minimize shipping costs, with incredibly quick assembly. The stain resistant surface wipes down easily, making the KD Service Cart an excellent choice for workspaces that must be kept free of debris.

- Holds up to 180 kg
- Ergonomic handles have permanently molded-in Camguard antimicrobial to inhibit the growth of mold, fungus and bacteria.
- Marine rails and lightly textured polypropylene shelves keep contents in place
- Each shelf holds a full size Camrack or two standard bus boxes side by side
