SPECIFICATION SHEET

MEATSAVER PAPER – PEACH, GREEN & WHITE

This product is designed for butcher and meat plant display and packaging. The paper is uniquely sized for strong fluid holdout. The formulation promotes coagulation as well as water resistance. Its wet strength properties keep the sheet intact under prolonged contact with moist meats. The vibrant colour adds contrast to all displayed butcher and deli products.

Approvals:

- All raw materials and additives used in production comply with main food regulations.
- Compliant with FDA and EU regulations for direct food contact.

Environmental Specifications:

- Processed with low water consumption.
- FSC certification.
