Product description Bannister Brush

White Handle & stock filled with polyester - securely held with corrosion proof staples.

Stiff texture.

This Hill Brush 'Salmon Products' design is robust, withstands heavy use, resists corrosion, rotting, moisture absorption & associated bacterial contamination. Surfaces are smooth & easily cleaned.

This brush may be boiled or autoclaved (heat tolerance A) & safely used with normal cleaning agents.

Suitable for use in hygienically sensitive areas.

Length: 322 mm

Width: 40 mm

Height: 17 mm

Weight: 0.165 kg

Material: Polypropylene

Fill Material: Polyester - Crimped

Filament Retention: Resin Set

Stiffness: Medium

Min Usage Temperature: -18 °C

Max Usage Temperature: 79 °C

FDA Compliant: YES
